

ENHANCING RESPONSIBILITY WITH OUR...

Classroom Economy System

What is it?

A system in which students learn how to properly handle money in a fun, experimental environment.

Details

- Students will get paid a weekly salary. They can earn a daily bonus for great behavior.
- Students will use their salaries to pay "rent" for their desk/chair and other expenses such as snacks.
- Students may incur fines for taking excessive bathroom breaks, losing supplies, etc. These will be deducted from the weekly salary.
- Students may use leftover money to purchase small prizes from our classroom shop.

Notes

- This is a trial run. Please be patient as we finalize details.
- This system does NOT replace our behavior system. It works alongside the system to encourage positive behavior.
